SAFETY DATA SHEET

1. Identification

| Product identifier | BLACKHAWK™ 5700 MEMBRANE/SEALANT PART B |
|---------------------------------------|---|
| Other means of identification | None. |
| Recommended use | Not available. |
| Recommended restrictions | None known. |
| Manufacturer/Importer/Suppl | ier/Distributor information |
| Company Name | ErgonArmor, a division of Ergon Asphalt & Emulsions, Inc. |
| Address | 2829 Lakeland Drive |
| | Jackson, MS 39232 |
| | USA |
| After hours telephone number | 1-800-222-7122 |
| Normal work hours telephone number | 1-877-982-7667 |
| Website | www.ergonarmor.com |
| E-mail | sds@ergon.com |
| Emergency 24-hour telephone number | CHEMTREC: North America 1-800-424-9300 International 1-800-527-3887 |
| Information on operation hours | 8:00 a.m. to 5:00 p.m. |

2. Hazard(s) identification

| Physical hazards | Not classified. | |
|-----------------------|---|---|
| Health hazards | Acute toxicity, inhalation | Category 4 |
| | Skin corrosion/irritation | Category 2 |
| | Serious eye damage/eye irritation | Category 2B |
| | Sensitization, respiratory | Category 1 |
| | Sensitization, skin | Category 1B |
| | Specific target organ toxicity, single exposure | Category 3 respiratory tract irritation |
| | Specific target organ toxicity, repeated exposure | Category 2 |
| Environmental hazards | Not classified. | |
| OSHA defined hazards | Not classified. | |
| Label elements | | |

Causes eye irritation. Causes skin irritation. Harmful if inhaled. May cause allergy or asthma symptoms or breathing difficulties if inhaled. May cause an allergic skin reaction. May cause respiratory irritation. May cause damage to organs through prolonged or repeated exposure.

Precautionary statement Prevention

Do not breathe dust/fume/gas/mist/vapors/spray. Wear protective gloves. Use only outdoors or in a well-ventilated area. In case of inadequate ventilation wear respiratory protection. Contaminated work clothing should not be allowed out of the workplace. Wash thoroughly after handling.

Danger

| Response | Call a POISON CENTER/doctor if you feel unwell. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Get medical assistance if you feel unwell. IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention. If experiencing respiratory symptoms: Call a poison center/doctor. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash before reuse. Specific treatment (see this label). |
|--|---|
| Storage | Store in a well-ventilated place. Keep container tightly closed. Store locked up. |
| Disposal | Dispose of contents/container in accordance with local/regional/national/international regulations. |
| Hazard(s) not otherwise classified (HNOC) | None known. |
| Supplemental information | None. |

3. Composition/information on ingredients

Mixtures

| Chemical name | Common name and synonyms | CAS number | % |
|--|--|--|--|
| POLYMERIC DIPHENYLMETHAN DIISOCYANATE (pMDI) | E | 9016-87-9 | >=50.0 - <75.0 |
| MDI | | 101-68-8 | >=25.0 - <50 |
| METHYLENEDIPHENYL DIISOCYANATE | | 26447-40-5 | >=3.0 - <7.0 |
| 1,3-DIAZETIDINE-2,4-DIONE, 1,3-BIS[4-[(4-ISOCYANATOPHE) METHYL]PHENYL]- | NYL | 17589-24-1 | >=1.0 - <3.0 |
| ISOCYANIC ACID, POLYMETHYLENEPOLYPHENYLE ESTER, POLYMER WITH .ALPHAHYDROOMEGAHYDI YPOLY(OXY-1,2-ETHANEDIYL) | | 57636-09-6 | >=1.0 - <3.0 |
| Other components below report | able levels | | 14 |
| *Designates that a specific chemic | al identity and/or percentage of composition ha | s been withheld as a trade | secret. |
| Composition comments | The full text for all R- and H-phrases is display | yed in section 16 | |
| 4. First-aid measures | | | |
| Inhalation Skin contact | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Oxygen or artificial respiration if needed. Do not use mouth-to-mouth method if victim inhaled the substance. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Call a physician or poison control center immediately. Remove contaminated clothing immediately and wash skin with soap and water. Call a physician or poison control center immediately. Wash contaminated clothing before reuse. Wash clothing | | |
| Eye contact | separately before reuse. Immediately flush eyes with plenty of water for present and easy to do. Continue rinsing. Call | | |
| Ingestion | IF SWALLOWED: Immediately call a POISON thoroughly. Immediately rinse mouth and drir by mouth to a victim who is unconscious or is advice from poison control center. If vomiting doesn't get into the lungs. Do not use mouth- | CENTER or doctor/physicia hk plenty of water (200-300 having convulsions. Do not occurs, keep head low so t | n. Rinse mouth ml). Never give anything t induce vomiting without hat stomach content |
| Most important symptoms/effects, acute and delayed | Causes eye irritation. May cause allergic skin reaction. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause respiratory irritation. Coughing. Difficulty in breathing. Skin irritation. May cause redness and pain. Dermatitis. Rash. Prolonged exposure may cause chronic effects. | | |
| Indication of immediate medical attention and special treatment needed | Provide general supportive measures and trea | at symptomatically. Symptor | ns may be delayed. |
| General information | In case of shortness of breath, give oxygen. I advice/attention. If you feel unwell, seek med that medical personnel are aware of the mate themselves. Show this safety data sheet to th observation. | lical advice (show the label rial(s) involved, and take p | where possible). Ensure recautions to protect |

5. Fire-fighting measures

| Suitable extinguishing media | Water spray. Dry powder. Foam. Carbon dioxide (CO2). | |
|---|---|--|
| Unsuitable extinguishing media | Do not use water jet as an extinguisher, as this will spread the fire. | |
| Specific hazards arising from the chemical | Use a water spray to cool fire-exposed containers. | |
| Special protective equipment and precautions for firefighters | Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA. | |
| Fire fighting equipment/instructions | Move containers from fire area if you can do so without risk. Do not get water inside container. In the event of fire, cool tanks with water spray. | |
| Specific methods | Use standard firefighting procedures and consider the hazards of other involved materials. | |
| General fire hazards | No unusual fire or explosion hazards noted. | |
| 6. Accidental release mea | isures | |
| Personal precautions, protective equipment and emergency procedures | Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist or vapor. Avoid skin contact and inhalation of vapors during disposal of spills. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS. | |
| Methods and materials for | Do not get water on spilled substance or inside containers. | |
| containment and cleaning up | Large Spills: For spills, stop leaks and provide diking to contain the material. Prevent entry into sewage systems, ground and surface waters. If temporary control of isocyanate vapor is required, a blanket of protein foam or other suitable foam (available from most fire departments) may be placed over the spill. Transfer as much liquid as possible via pump or vacuum device into closed but not sealed containers for disposal. | |
| | and 265 for further information). Shovel into open container. Spill area can be decontaminated with the following recommended decontamination solution: Mixture of 90 % water, 5-8 % household ammonia, 2-5 % detergent. Allow solution to stand for at least 10 minutes. Pick up with suitable absorbent material. Place into appropriately labeled waste containers. Do not make container pressure tight. Move container to a well-ventilated area (outside). Allow to stand for at least 48 hours to allow escape of evolved carbon dioxide. Dispose of absorbed material in accordance with regulations. For waste disposal, see section 13 of the SDS. | |
| | Never return spills in original containers for re-use. | |
| | For residues: The following measures should be taken for final cleanup: Spill area can be decontaminated with the following recommended decontamination solution: Mixture of 90 % water, 5-8 % household ammonia, 2-5 % detergent. Wash down spill area with decontamination solution. Allow solution to stand for at least 10 minutes. Pick up with suitable absorbent material. Place into appropriately labeled waste containers . Do not make container pressure tight. Move container to a well-ventilated area (outside). Allow to st,md for at least 48 hours to allow escape of evolved carbon dioxide. Dispose of absorbed material in accordance with regulations | |
| Environmental precautions | Avoid discharge into drains, water courses or onto the ground. | |
| 7. Handling and storage | | |
| Precautions for safe handling | Observe good industrial hygiene practices. Do not handle until all safety precautions have been read and understood. Do not get this material in contact with eyes. Avoid forming spray/aerosol mists. Do not get this material in contact with skin. Do not get this material on clothing. Avoid contact with eyes, skin, and clothing. Protect against moisture. Avoid prolonged exposure. Danger of bursting when sealed gaslight. If bulging of drum occurs, transfer to well ventilated area, puncture to relieve pressure, open vent and let stand for 48 hours before resealing. Provide adequate ventilation. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Do not empty into drains. | |

Store in closed original container at temperatures between 0°C and 38°C. Store locked up. Store in tightly closed container. Store away from incompatible materials (see Section 10 of the SDS). Keep away from food, drink and animal feedingstuffs. Formation of CO2 and build up of pressure possible. Keep container tightly closed and in a well-ventilated place. Outage of containers should be filled with dry inert gas at atmospheric pressure to avoid reaction with moisture.

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

| Components | Туре | Value |
|---|--|--|
| MDI (CAS 101-68-8) | Ceiling | 0.2 mg/m3 |
| | | 0.02 ppm |
| US. ACGIH Threshold Lim | it Values | |
| Components | Туре | Value |
| MDI (CAS 101-68-8) | TWA | 0.005 ppm |
| US. NIOSH: Pocket Guide | e to Chemical Hazards | |
| Components | Туре | Value |
| MDI (CAS 101-68-8) | Ceiling | 0.2 mg/m3 |
| | | 0.02 ppm |
| | TWA | 0.05 mg/m3 |
| | | 0.005 ppm |
| logical limit values | No biological exposure limits noted for | or the ingredient(s). |
| propriate engineering ntrols | | ng appropriate local extraction, to ensure that the defined seeded. Provide eyewash station and safety shower. |
| lividual protection measur Eye/face protection | res, such as personal protective equ Wear chemical splash goggles and fa splashing or spraying of material. | ipment ce shield when eye and face contact is possible due to |
| Skin protection Hand protection | Chemical resistant gloves are recomn gloves. Neoprene, nitrile, polyethylen | nended. If contact with forearms is likely wear gauntlet styl e or PVC. Butyl rubber. |
| Other | Avoid contact with the skin. Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended. Chemical resistant gloves. | |
| Respiratory protection | When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. | |
| Thermal hazards | Wear appropriate thermal protective | clothing, when necessary. |
| neral hygiene nsiderations | Do not get in eyes. Do not get this material in contact with skin. Keep away from food and drink. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment remove contaminants. Contaminated work clothing should not be allowed out of the workplace. Wash hands before breaks and immediately after handling the product. Provide eyewash station and safety shower. | |
| Physical and chemica | - | |
| nearance | Brown Liquid | |

Appearance Brown Liquid **Physical state** Liquid. Liquid. Form Color Dark amber. Aromatic. Mild. Odor **Odor threshold** Not available. Not available. pН 37.4 °F (3 °C) Melting point/freezing point

| | |

10. Stability and reactivity

| Reactivity | The product is stable and non-reactive under normal conditions of use, storage and transport |
|-------------------------------------|--|
| Chemical stability | Material is stable under normal conditions. |
| Possibility of hazardous reactions | Risk of bursting. Reacts with water, with formation of carbon dioxide. Risk of exothermic reaction. Hazardous polymerization can occur. Contact with certain rubbers and plastics can cause brittleness of the substance/product with subsequent loss in strength. |
| Conditions to avoid | Moisture. Contact with incompatible materials. |
| Incompatible materials | Acids. Amines. Alcohols. Water. Alkaline metals. Strong bases. Substances/products that react with isocyanates. |
| Hazardous decomposition products | Carbon monoxide, carbon dioxide, hydrogen cyanide, nitrogen oxides, aromatic isocyanates, gases/vapours. Gases/vapours. |

11. Toxicological information

Information on likely routes of exposure

| Inhalation | Harmful if inhaled. May cause irritation to the respiratory system. May cause allergy or asthma symptoms or breathing difficulties if inhaled. Prolonged inhalation may be harmful. |
|--|---|
| Skin contact | Causes skin irritation. May cause an allergic skin reaction |
| Eye contact | Causes eye irritation. |
| Ingestion | May cause discomfort if swallowed. |
| Symptoms related to the physical, chemical and toxicological characteristics | Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Irritant effects. Irritating to eyes, respiratory system and skin. Irritating to mouth, throat, and stomach. Coughing. Difficulty in breathing. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash. Wheezing. |

Information on toxicological effects

| Acute toxicity | Not applicable. | |
|---|---|--|
| Skin corrosion/irritation | Causes skin irritation. | |
| Serious eye damage/eye irritation | Causes eye irritation. | |
| Respiratory or skin sensitization | on | |
| Respiratory sensitization | May cause allergy or asthma symptoms or breathing difficulties if inhaled | |
| Skin sensitization | May cause sensitization by skin contact. May cause an allergic skin reaction. Frequent or prolonged contact may defat and dry the skin, leading to discomfort and dermatitis. | |
| Germ cell mutagenicity | No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic. | |
| Carcinogenicity | Not classifiable as to carcinogenicity to humans. | |
| IARC Monographs. Overall | Evaluation of Carcinogenicity | |
| MDI (CAS 101-68-8) 3 Not classifiable as to carcinogenicity to humans. METHYLENEDIPHENYL DIISOCYANATE (CAS 26447-40-5) 3 Not classifiable as to carcinogenicity to humans. POLYMERIC DIPHENYLMETHANE DIISOCYANATE (pMDI) 3 Not classifiable as to carcinogenicity to humans. (CAS 9016-87-9) | | |
| OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052) | | |
| Not regulated. | | |
| US. National Toxicology Program (NTP) Report on Carcinogens | | |
| Not listed. | | |
| Reproductive toxicity | Not classified. | |
| Specific target organ toxicity - single exposure | Respiratory tract irritation. | |
| Specific target organ toxicity - repeated exposure | May cause damage to organs through prolonged or repeated exposure. Olfactory organs. Respiratory system. | |
| Aspiration hazard | Not available. | |
| 12. Ecological information | | |
| | | |

| Ecotoxicity | Not expected to be harmful to aquatic organisms. |
|----------------------------------|---|
| Persistence and degradability | No data is available on the degradability of this product. |
| Bioaccumulative potential | No data available. |
| Mobility in soil | No data available. |
| Other adverse effects | No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component. |

13. Disposal considerations

| Disposal instructions | Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not discharge into drains, water courses or onto the ground. Dispose of contents/container in accordance with local/regional/national/international regulations. |
|--|---|
| Local disposal regulations | Dispose in accordance with all applicable regulations. |
| Hazardous waste code | The waste code should be assigned in discussion between the user, the producer and the waste disposal company. |
| Waste from residues / unused products | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions). Avoid discharge into water courses or onto the ground. |
| Contaminated packaging | Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied. |

14. Transport information

DOT

Not regulated as dangerous goods.

IATA

Not regulated as dangerous goods.

IMDG

Not regulated as dangerous goods.

| Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code | Not established. | | | |
|--|---|--|---|--|
| General information | If shipped below RQ, this product is not subject to hazardous materials regulations. | | | |
